NERVOUS AND DESPONDENT

Mrs. Brockette Sought In Vain For Relief By Travel In Foreign Countries

Every nervous, debilitated woman should read this letter of Mrs. R. T. Brockette, a New York lady prominent in American and foreign social circles:

"I have received so much benefit from the use of your Mucu-Tone that I feel I ought not to hesitate in an acknowledgment of my debt to you. In 1900 I went abroad for my health, spending three years in France, Switzerland, Ital land and England. I was quite weak, and the slightest effort brought on a fit of trembling, so that I had to travel very leisurely. I took the opportunity to consult several good physicians in Paris and London, but the benefit I received from their treatment was but slight and temporary. Returning to New York last fall, I found myself still an invalid.

"My appetite failed, I could not sleep, I had severe headaches and the result of any little shopping trip was always com-plete prostration. The doctors thought me suffering from nervous debility and malnutrition

"A short time ago a friend recom-mended your Rexall Mucu-Tone to me very highly. I had never thought of using a 'patent medicine,' having a natural prejudice against them. But I was

so weak and sick and my friend's belief in the medicine so strong that I bought my first bottle of Mucu-Tone then and "Since then I have bought four other

bottles and am practically a well woman. I eat heartily, sleep soundly, and am no longer nervous and pale, but a hearty, active woman. If my case was as the doctors said, one of nervous debility and malnutrition, then I am sure you have in Mucu-Tone a wonderful remedy for this condition.

"Everyone notices the change in me and compliments me on my good health. "Grateful for your helpful and healing medicine, I remain, etc.,

In R & Brockette 215 West 116th St., New York City."

How is it that Rexall Mucu-Tone, a catarrh cure, accomplishes this?

Simply because it is a catarrhal condition of the mucous membranes of the body that is responsible for nine out of ten cases of "nerves," ill health, weakness, despondency and general debility.

Mucu-Tone corrects these conditions. It works through the blood, driving out the poisons, healing the sore membranes and revitalizing the blood. In addition to this it is the most powerful nutritive tonic known to science.

If you are tired, worn out and run down; if your sleep does not rest you and if you feel on the verge of nervous prostration, give Rexall Mucu-Tone a trial. If it doesn't make a new person of you come back and we will refund

Charles Stuart, one time senator from nity have not, as a rule, much else to through his own state. The weather we bitterly cold, the snow deep, the roads practically unbroken. The stage was nearly one hour late at the dinner station, everybody was more or less cross and in a hurry and the situation uncomfortable to the last degree.

Senator Stuart sat down to his dinner with his usual deliberation, notwithstanding the word that was passed around, "Fifteen minutes for refreshments.'

When he had finished his first cup of coffee the passengers were leaving the table. By the time the second cup arrived the stage was at the door. "All aboard!" shouted the driver. The senator lingered and called for a third cup of coffee. The crowd laughed and flung back chaff at the deliberate man at the table. While the household, as was the cus-

The Judge's Advantage.

One of the best stories of Judge Parry, a famous English jurist, related to a feeble looking man who was rebuked for supporting a ridiculous claim made by his wife. "I tell you candidly, I don't believe a word of your wife's story," said Judge Parry. "Yer may do as yer like," replied the

man mournfully, "but I've got to."

It was once the doubtful privilege of Judge Parry to overhear the comments of two men against whom he had decided. "'E's a fool, but 'e did 'is best," was the verdict of these disappointed suitors. "One might sleep under an unkinder epitaph," was the philosophic comment of the judge.

"The chairman of the Republican state committee has invited to sit upon the platform at the state convention those men who participated in the Republican state convention of 1856. These venerable patriots can read upon the walls every proposition the Republican party has advocated since the first convention. They illumine been erased or blurred. These men voted for Fremont and did not regret of our great leaders looking down from the walls and they are proud of them all. Not a single picture is turned to the wall. From Fremont to Roosevelt

we are proud of them all. "How is it with the Democratic party? Every line written by that party during these forty-eight years of glorious history has been erased. Every leader has been discredited. We look hopefully to the future; they look doubtfully at the past. We know what we are going to do and the name of our commander; they do not know what they will do nor who will command them.

"We know that we are going to nominate the capable, earnest and energetic Jesse Overstreet for congress. Some congressmen talk and do not work. Some work and do not talk. Jesse Overstreet both works and talks.

"We also know that we are going to elect a Republican legislature this year and that we are going to re-elect the brilliant and capable junior senator, Albert J. Beveridge. We know that we are going to nominate and elect as a successor to Lincoln, Grant, Hayes, Garfield, Harrison and McKinley, the interpid, honest, brave, fearless and competent leader, Theodore Roosevelt. We know that we are going to stand by the flag wherever she floats, as we have always done. We know that we are going to stand by the boy who wears the blue shirt of the cables to Paris and St. Petersburg the American soldier, in whatever sun or clime he marches or sleeps. We know that everywhere around this world he will carry the torch of civilization in one hand and the flag in the other, and that wherever he goes the blessings of civil liberty and civic righteousness will follow.

Catarrh begins with a stubborn cold in the head, inflammation or soreness of the membrane or lining of the nose, discharge of mucus matter, headaches, neuralgia and difficult breathing, and even in this early stage is almost intolerable. But when the filthy secretions begin to drop back into the throat and stomach, and the blood becomes polluted and the

system contaminated by the catarrhal poison, then the sufferer begins to realize what a disgusting and sickending and sickending disease Catarrh is.

I had a continual headache, my cheeks had grown purple, my nose was always stopped up, my breath purple, my nose was always stopped up, my breath incessantly. I heard of S. S. S. and commenced to use it and after taking several bottles I was cured and have never since had the slightest symptom of the disease.

Indianapolis, April 4.—Commemorative of Arbor day, and following a precedent established by Governor Mount, Governor Durbin planted a tree on the lawn east of the statehouse. Custodian W. W. Huffman selected about twenty trees for planting on the lawn and gave the governor the choice of the lot, a fine young ash. Like a worker in the woods the governor took a spade and made the ground fly. While the helpers held the tree the governor placed the ground carefully about the roots of the tree, and when the hole was filled stamped the

A DIFFICULT PROBLEM

Indianapolis in a Quandary Over Its Bridges.

Indianapolis, April 4.—The bridge proposition is one which has been agitating Indianapolis for several months on account of the poor condition of several of the structures in this city. A new feature has been presented in the discussion of the question on account of the recent flood.

It was clearly demonstrated that several of the new bridges over Fall creek do not have sufficient "headway" to accommodate the great flow of water which is sure to come down the stream in case of a flood. How to secure the necessary headway will be a point to be determined in future bridge construction. It will be a difficult one to solve, too. The reason for this is that the streets crossing Fall creek are so low that the headway cannot be secured. To give the headway it will be necessary to build up the streets at least twenty feet. If this is done, however, another difficult point is presented, for the building of overflow its banks and it could not

LA GRIPPE-PREUMONIA

So many people who have apparently recovered from an attack of La Grippe are stricken with Pneumonia. This is due to the fact that the Bronchial Tubes and Lungs are left weakened and unable to resist disease.

FOLEY'S HONEY AND

not only cures La Grippe Coughs, and prevents Pneumonia, but strengthens the Lungs so they will not be susceptible to the development of serious lung troubles. Do not take chances with some unknown preparation that may contain some harmful drug when FOLEY'S HONEY AND TAR costs you no more and is safe and sure. Contains no opiates.

I had a bad case of La Grippe about ten years ago which left my Lungs

so weak that I have been troubled more or less every winter since until I used FOLEY'S HONEY AND TAR, which cured me completely and my Lungs a bottle of FOLEY'S HONEY AND TAR and it gave immediate relief."

The 50c bottles contain two and one-half times as much as the small size and the \$1.00 bottles almost six times as much.
